**Industrial**  
Vacuum & Air Systems

## Coin Operated Self Serve Vacuum

Take advantage of AutoVac's durable coin operated self serve vacuum. This powerful all-in-one unit arrives assembled and ready to install. Each unit is manufactured in-house to exacting production standards and includes the most reliable electric motors available, low maintenance filtration devices, and dependable coin acceptors.

Choose from additional motors, colored hoses, electronic currency acceptors and more.

Combine one or more self-serve vacuums with AutoVac's Freedom Truss System to create an inviting canopied vacuum area. Designed with the customer in mind, the Freedom Truss System delivers vacuum hoses directly to the point of use and keeps hoses suspended off the ground.

## FREEDOM TRUSS SYSTEM

Freedom Truss with Coin Operated Vacuums

- Combine one or more self serve vacuums with Auto-Vac's Freedom Truss system for an affordable, completely customizable vacuum area.
- Vacuum hoses are delivered to the point of use, so customers enjoy convenient vacuuming and no longer drive over hoses.
- No need to coil hoses -- it's easy to use and easy to maintain.
- System is modular and expandable so it grows to suit your needs.
